

# Delivering Outstanding PE & Movement

## Senmove PE & Movement - Practitioner at St Mary's University, Twickenham, London.

"Everything you need to teach the highest quality PE & Movement activities."

### Aim:

To qualify as a Senmove PE & Movement Practitioner.

### Senmove PE & Movement Practitioner qualification enables you to:

Deliver a unique range of PE & Movement activities for your students in the PMLD, SLD, ASD and MSI ability range.

### Who is this course for?

Those who teach, lead or coach groups of special needs students, including: teachers, support staff, SSCOs, PDMs, therapists, sports development staff and disability coaches.

### Candidate Assessment

- Delivery of a practical session with students from a local special school.
- Tutor observations of personal skills for each module.
- Portfolio - lesson plans and evaluations.

### Content:

- How to plan, teach, assess and evaluate student learning in the following four modules: Senmove Innovative PE, Senmove Aquatics, Senmove Trampoline, Senmove Outdoors.
- Senmove Rationale. What are the aims of special needs PE & Movement? What are the benefits? What do successful lessons look like? What is progress and how to measure it? P and National Curriculum levels. Using support staff effectively.
- How to deliver each activity to the following distinct ability groups: PMLD & lower ability SLD, middle ability SLD, higher ability SLD. Including approaches that really work for challenging ASD and MSI students.

A five day course - Thursdays: 7th October , 4th November, 2nd December 2010, 13th January and 10th February 2011.
